## 2007 Retail Price List

**Classic KISS Rebreather Kit , with Jetsam Triple display - \$5,600.00 USD**

**Classic KISS Rebreather Kit, with Closed Circuit Research Triple Pendent Display - \$5,750.00 USD**

This includes everything except the 3 sensors, two tanks and a BCD or Harness. Any BCD/Harness that has the bolt holes in the back can be used. The tanks should have a set of lefthand/righthand valves. We recommend 2 liter tanks. For sensors, we have used both the Teledyne R22-ATT and R22-D. The R22-D sensors are the ones Teledyne now recommends for diving applications.

**Crating & Handling Fee, Classic KISS - \$30.00 USD**

**Sport KISS Rebreather Kit, Complete - \$5,200.00 USD**

This includes the complete rebreather, 3 K1D sensors, Oxycheq 40# Kiss Wing and A-Pac Lite Harness, 2 Aluminum 13 cuft tanks with modular lefthand/righthand valves.

**Sport KISS Rebreather Kit - \$4,450.00 USD**

This includes the complete rebreather and 3 K1D sensors, but no harness/wing and no tanks.

**Crating & Handling Fee, Sport KISS - \$20.00 USD**

Shipping for the Classic and Sport KISS Rebreather Kits : We courier via an international shipping company, airport to airport. Once the shipment lands at the airport, you, the client will be contacted for further instructions. You can either pick up the order at the airport or choose to have it delivered on. To most places, we ship collect. This way, there is absolutely no markup on the shipping costs. You are paying the exact fee. On top of the shipping fee, you will also be responsible for any taxes, duties and brokerage fees. These charges usually need to be paid for when the unit is picked up or delivered. Please note that we will only ship the rebreather kit fully insured.

For areas where shipping collect is not an option, shipping will have to be paid in advance with the purchase of the rebreather kit. We will need your complete shipping address in order to provide you with a proper quote. Also, we will need the name of the airport where you would like to pick the unit up. When the unit arrives, you will still have the option of picking the unit up at the airport or having it delivered on. Any extra delivery, taxes, duties and brokerage fees will be an extra charge. Our fee covers the courier and full insurance to your airport. These extra charges usually need to be paid for when the unit is picked up or delivered.

Units shipped within Canada or the USA are shipped UPS expedited directly to your shipping address. This shipping method includes the brokerage fees. As the brokerage fee is a percentage of the value of the item shipped, this is the most economical way to ship a high value item.

**Baby Booster - \$1,575.00 USD**

**Baby Booster Kit (includes the booster, whips/gauge and 1500 Pelican Case) - \$2,226.00 USD**

**Whips/Gauge - \$565.00 USD**

**Pelican 1500 Case - \$125.00 USD**

**Baby Booster Seal Kit - \$60.00 USD**

**Shipping - Please contact us for a quote. We will need to know your order and your shipping address in order to give you an exact shipping quote.**
